SCHOOL HEALTH ENROLLMENT AND TRANSFER INFORMATION

Prior to school entrance (September 1st) all new students and those entering pre-kindergarten and kindergarten are required to submit a completed physical form and show proof of immunizations.

It is strongly recommended that students entering 3rd grade submit a new physical, also. All 6th grade students must present proof of these immunizations prior to school entry in September.

Physical forms and proof of immunization are a state requirement and students will not be permitted to enter school in September without the proper documentation.

Immunizations are required for entry into school to comply with Chapter 14 of the New Jersey Sanitary Code. Failure to provide a complete immunization record can result in the child's exclusion from school. The school nurse reviews all immunization records prior to student's admission. The following immunizations are required:
