

## Meet Rachel, a senior at Milton Hershey School:

When I enrolled at Milton Hershey School (MHS), it was a life changer. It's what really gave me the confidence to step outside my comfort zone. It's what helped me become a leader and pushed me to be the best I could be. Before I came to MHS, I was originally from Cape May, New Jersey. I was quiet, self-conscious, and introverted. After a few years at MHS, I noticed changes within myself. I became a leader and an outgoing, fun, bubbly, and determined girl who had a dream.

I became involved in so many different activities such as Student Government Association where I served as the secretary for the next four years. I also joined the Hershey Community Youth Alliance, Junior Chapel, SkillsUSA, Hershey Rotary, and Spartan Justice Club. I participated in two different sports, including cross country and softball. I also applied myself more in school and earned a spot in The Temple Program, which gives me the opportunity to take college-level classes from Temple University professors who visit the MHS campus each week.

Coming from an impoverished background, I have found the courage to be different and make a change in my life. MHS has provided me with opportunities and skillsets I didn't think I would ever have in my life. It has also provided me with lifelong friendships and helped me to expand my own definition of family.

Join me for dinner and an informational session to learn more. I look forward to meeting you and sharing the growth I've experienced at Milton Hershey School!
