Please note that for the 2022 NJSLA Spring testing, the Upper Township School District has been required by the NJDOE to participate in the ELA field test. This requires an extra ELA unit, resulting in three total units, instead of the normal two. This field test is for testing research/development purposes, can be any one of the three units, and does not count for or against your child's progress. Approximately 50% of statewide school districts have been required to participate for Spring 2022.

Please continue to assist us in providing each and every one of our students with the greatest opportunity to be successful and demonstrate their true abilities. Please be aware that any student who arrives late to school while the test is being administered will have to make up that particular test. Students who arrive late will have to wait in the office until testing is over. If you have any questions or concerns regarding the state assessment, feel free to contact me by phone or email. On behalf of the Upper Township School District, thank you for your continued support.

Sincerely,

David Smith
