NJ Science Assessment (Spring 2019)

The New Jersey Department of Education is in the final phase of the state-required procurement process for the new science assessments that will be administered this school year. The NJDOE expects to release detailed information and guidance for districts on the new science assessments in the coming weeks.

Elementary School

5th Grade

Regular Dates: 5/21 & 22

Make Up Dates: 5/23 - 30

Middle School

8th Grade

Regular Dates: 5/13 & 14

Make Up Dates: 5/15 - 30

F&P BENCHMARKING

Fountas & Pinnell Literacy Benchmarking

Primary School Students: Kindergarten - 2nd Grade

Elementary School Students: 3rd - 5th Grade

- A Minimum of 3 Administrations Yearly

The *Fountas & Pinnell Benchmark Assessment Systems* are accurate and reliable tools to identify the instructional and independent reading levels of all students and document student progress through one-on-one formative and summative assessments.

NJSLA/PARCC SUMMARY

The Partnership for Assessment of Readiness for College and Careers (PARCC) is a consortium of states that collaboratively developed a common set of assessments to measure student achievement and preparedness for college and careers.

The PARCC assessments are aligned to the Common Core State Standards (CCSS) and the New Jersey Student Learning Standards (NJSLS) and were created to measure students' ability to apply their knowledge of concepts rather than memorizing facts. The PARCC assessments require students to solve problems using mathematical reasoning and to be able to model mathematical principles. In English Language Arts (ELA), students will be required to closely read multiple passages and to write essay responses in literary analysis, research tasks and narrative tasks. The assessments will also provide teachers information on student progress to inform instruction and provide targeted student support.

NJSLA/PARCC REQUIREMENTS

The Federal No Child Left Behind Act of 2001 requires schools with students in grades three through twelve to demonstrate Adequate Yearly Progress (AYP). In order to make AYP, a school must ensure that assessments have been taken by at least ninety-five percent (95%) of enrolled students in each subgroup, i.e., special education, English language learners, low income, race/ethnicity. Federal funding of key education programs is dependent upon districts meeting this requirement.

In compliance with this federal requirement, N.J.S.A. 18A:7C-1 requires the Commissioner of Education (Commissioner), with approval of the State Board of Education, to establish a program of standards for graduation from secondary school, and such a program shall include, “[t]he development of a Statewide assessment test in reading, writing, and computational skills to be administered to all secondary school pupils...” In addition, N.J.A.C. 6A:8-4.1(a) and (b) provides, “[t]he Commissioner...may implement assessment of student achievement in the State’s public schools in any grade(s) and by such assessments as he or she deems appropriate,” and the Commissioner “...shall define the scope and level of student performance on Statewide assessments that demonstrate thorough understanding of the knowledge and skills delineated by the CCCS at grade levels three through 12.” Subsection (c) further states that district boards of education “shall, according to a schedule prescribed by the Commissioner, administer the applicable Statewide assessments,” and subsection (d) confirms that “all students at grade levels three through 12, and at any other grade(s) designated by the Commissioner...shall take appropriate Statewide assessments as scheduled.”

In accordance with the above, State law and regulations require all students to take State assessments.

NJSLA/PARCC REQUIREMENTS

On August 3, 2016, the State Board of Education approved updated state regulations for the high school graduation assessments requirements in both English language arts (ELA) and mathematics for the Classes of 2016 through 2021, and beyond.

Students graduating as members of the classes of 2016 through 2019 can meet graduation assessment requirements through a variety of ways, including:

- (1) Achieving passing scores on certain PARCC assessments;
- (2) Achieving certain scores on alternative assessments such as the SAT, ACT, or Accuplacer; or
- (3) The submission by the district of a student portfolio through the Department's portfolio appeals process.
- (4) Special Education students whose Individualized Education Plans (IEPs) specify an alternative way to demonstrate proficiencies will continue to follow the graduation requirements set forth in their IEPs.

The Class of 2020 can demonstrate graduation assessment proficiency through the same alternative means as those in the Classes of 2016 through 2019, provided that students in the Class of 2020 take all end-of-course PARCC assessments for which they are eligible, as of the effective date of when the amendments were adopted by the State Board of Education.

For the Class of 2021 and thereafter, students who have not demonstrated proficiency on the ELA 10 and Algebra 1 assessments, and have taken all end-of-course PARCC assessments for which they are eligible, can demonstrate graduation assessment proficiency by meeting the criteria of the portfolio appeals process.
